

OUR FAMILY RULES

If a call, text, or post involves **money, trouble, codes, or anger** — run the list. Tape this near the phone.

1 Any call about money, bail, codes, or trouble: **hang up. Call back on the number you already have.** (On the back of your card, your statement — never the number that called you.)

2 Family member "in trouble" on the phone? **Ask the safe word.** No safe word — no exceptions, no matter how real the voice sounds. Hang up and call them yourself.

3 **Never read, forward, or type a text-message code for anyone.** That code is the key to your account. Nobody real ever needs it.

4 **Gift cards are gifts, not payments.** Anyone who asks to be paid in gift cards — bank, IRS, court, "bail," "utility" — is a criminal. Full stop.

5 Story or video that makes you furious or terrified? **Don't forward it yet.** Check it — or send it to family first and ask.

Our family safe word: _____

Check-with-first person & number: _____

Scams run on secrecy and speed. Talking and checking delete both. If it happens anyway: call the bank first (fast), then report at **reportfraud.ftc.gov** and **ic3.gov** — and tell the family the same day. The only one shame protects is the scammer.
